Consultation on revised statutory guidance for VSH and designated teachers

Audience: All schools

The Government has launched a consultation seeking views on changes to two statutory guidance documents: Promoting the education of looked after children; and Roles and responsibilities of designated teachers for looked after children.

The Children and Social Work Act 2017 expanded the role of both Virtual School Heads and designated teachers to include the provision of information and advice to certain previously looked after children and their families. The guidance has been revised to reflect this change and new developments in policy, research and practice for these children and young people. We want your views on the proposed changes.

The consultation will run from 16/10/17 until 27/11/17 and can be accessed at:
