User input cells - Editable - this is where you (the user) will need to enter data
Prepopulated cells - Un-editable/prepopulated
Calculation cells - Automatic calculation outputs/un-editable

### Purpose of completing a management plan

It is a requirement of the DSG: conditions of grant 2020 to 2021 (paragraph 5.2) that local authorities (LAs) have a plan in place to manage their overspend on the DSG: [DSG: conditions of grant 2020 to 2021](#)

To help local authorities (LAs) meet this requirement we have provided this DSG management plan template. The template will help all LAs to focus attention on comparison of high needs provision and spend, to produce the required plan. We encourage all LAs to use the template as a planning tool.

This template will help LAs:

- comply with paragraph 5.2 of the DSG: conditions of grant 2020 to 2021
- monitor how DSG funding is being spent
- compare data on high needs spend between LAs
- highlight areas where LAs may wish to review spending
- form evidence-based and strategic future plans for the provision of children and young people with special education needs and disabilities (SEND)
- present complex funding information simply to schools forums and other external stakeholders
- endeavours to provide assurances that LAs are achieving value for money from their DSG spend
- provide a consistent reporting format to help LAs share best practice and initiatives

We expect the plan to be updated and shared in your schools forum meetings and high needs subgroups regularly and at least on a termly basis. You should aim to present the first version of the plan to the schools forum in time for budget planning discussions for 2021 to 2022 and before the deadline for block movement requests, if submitting one. We expect the management plan to be signed off by the Director of Children's Services and the s151 officer within your local authority (LA) and across other areas which have also contributed.

If you have any issues completing this template then please contact the Financial Management mailbox:

[Financial.management@education.gov.uk](mailto:Financial.management@education.gov.uk)

Further guidance on DSG balances can be found on pages 46 to 48 of the

[Schools revenue funding 2021 to 2022 operational guide](#)

## Data

This template contains some pre-populated data. These are published figures that have been submitted to the department in the SEN2, S251 and school census collections.

S251 data is used on the Financial tab and each of the placement tabs. The published figures can be found here:

[s251 budget and outturn returns for 2017 to 2018](#)

[s251 budget and outturn returns for 2018 to 2019](#)

School census data is used for the number of EHCP and statements in the table "Total number of EHCP's by primary need (with estimated future projections)" on the CYP tab. The published figures can be found here, under the 'Download associated files' dropdown:

[School census data](#)

SEN2 data is used for the number of statements and EHCPs in the table "Total number of EHCPs by age group (with estimated future projections)". This data is taken from the previous January census which details the number of children and young people with special educational needs (SEN) statements and EHCPs as provided by local authorities (LAs) in January and the data being published each year in May subsequent to the January collection.

[Education, health and care plans](#)

To note: there is a caveat that the census data only collects school aged pupils and therefore does not include further education (FE) and 'other' groups such as work based placements and young people not in education, employment or training (NEETS) with EHCPs.

[For reference SEN2 data includes information on the following cohorts:](#)

- o Post 16
- o FE colleges
- o other FE
- o sixth forms
- o special establishment
- o educated elsewhere
- o not in education, employment or training

- o other apprenticeships
- o traineeships
- o supported internships

Your forecast EHCP and pupil numbers should take into account the CYP currently receiving support as reported on the high needs census and projected numbers rather than an annual average.

### Placement details have been categorised as follows:

Mainstream schools or academies	Maintained mainstream schools (including foundation schools) Mainstream academies (including free schools)
Resourced provision or SEN units	Resourced provision in maintained mainstream schools and academies SEN units in maintained mainstream schools and academies
Maintained special schools or special academies	Maintained special schools (including foundation schools) Special academies (including special free schools)
NMSS or independent schools	Non-maintained special schools, independent special schools and other independent schools
Hospital Schools or Alternative Provision	Maintained hospital schools (including foundation schools) and pupil referral units Hospital schools that are academies, and alternative provision academies (including free schools)
Post 16 and Further Education (FE)	General further education and tertiary colleges/higher education Sixth form colleges Special post 16 institution Other further education
Other	Children and young people with a SEN statement or EHC plan for whom other arrangements have been made by parents or a local authority. Children and young people with a statement or EHC plan who were awaiting provision.

### Glossary of terminology

<b>Children and young people (CYP):</b>	
Under 5 years of age	Under school age
Aged 5-10	Primary
Aged 11-15	Secondary
Aged 16-19	Further Education
Aged 20-25	Further Education
<b>Primary Need</b>	
ASD	Austistic Spectrum Disorder
HI	Hearing Impairment
MLD	Moderate Learning Difficulty
MSI	Multi-Sensory Impairment
PD	Physical difficulty
P&MLD	Profound & Multiple Learning Difficulty
SEMH	Social, Emotional and Mental Health
SLCN	Speech, Language and Communciation needs
SLD	Severe Learning Difficulty
SPLD	Specific Learning Difficulty
VI	Visual impairment
Other	Other Difficulty / Disability
<b>Provision Type</b>	

AP	Alternative Provision
PRU	Pupil Referral Unit
NEETS	not in education, employment or training
<b>Financial:</b>	
Mitigated	if measures are put in place
Unmitigated	if no measures are put in place
Outturn	actual projected spend
SEND	Special Educational Needs and Disabilities
PCF	Parent Carer Forum
CCG	Clinical commissioning service

## Summary: Financial / Children and Young People (CYP) narrative

### Financial plan narrative

This is a brief description for managing the pressures on the DSG:

### High needs trends

Our strategy for managing the number of CYP receiving individual funding from the high needs block:

### Outcomes

How our management plan will ensure the best possible outcomes for children and young people with special educational needs and disabilities (SEND) in the local area:

## Children and Young People (CYP) summary

### Children and young people with education, health and care plans (EHCPs) or receiving top ups

All the cells on this tab are either pre populated or calculated from user input on other tabs. There are overview graphs following the table summaries

#### Total number of EHCPs by age group (with estimated future projections)

## Local Authority (LA) Specific Narrative

### Key risks and mitigations

Our key risks and mitigations are detailed below:

### Management plan support

What support we need to ensure we deliver our management plan effectively:

### Overall EHCP data and projected trends

Our main drivers statistically regarding all our EHCP rates are as follows:

### Strategy and approach to workforce

What we are doing to support education establishments to meet the needs of children and young people (CYP) with special educational needs and disabilities (SEND) and to promote inclusive

### Strategy and approach to EHCP rates

How we are ensuring we have the provision in place for all CYP with different needs:

## Managing demand pressures

What we are doing to manage demand pressures and the overall increase in numbers requiring support from the high needs block, including the demand from the 20-25 cohort of young people:

How we assess the threshold for our EHCP numbers:

## Sharing best practice and effective practices

How we are sharing best practice and effective practices, including how we are doing this alongside other local authorities:

## Assumptions

How we have arrived at these projected numbers - the formula we have used to arrive at the calculations and assumptions we have made, including why we have made these assumptions:

## Block movements and disapplications

These are our plans around block movements and disapplications for future years and how these fit into our overall strategy:

## Population

These are our assumptions regarding population growth within the local authority and how we have arrived at these calculations, including why we have made these assumptions:

## Governance and commissioning arrangements with CCGs

This is our approach to jointly commissioning services for CYP with SEND:

How we are using and will continue to strengthen our jointly commissioning arrangements for CYP with SEND:

## Capital

These are our plans regarding capital investment and how this will support our overall high needs strategy:

## Early years

These are our key strategies to support early years:

## Special educational needs (SEN) transport costs

This shows a year by year breakdown of our SEN transport costs:

Please include any breakdown of any costs charged to the DSG

**SEN other costs**

This free text box should provide a summary of your other costs charged to the high needs block of the DSG:

## High Needs Benchmarking Tool

### Comparison of special provision and placements

Care should be taken in interpreting these charts. For example, the proportion of children and young people with SEN statements or EHC plans in mainstream schools will reflect both the pupil intake of the schools and the assessment practice and process in the LA. A lower proportion will not necessarily indicate that the schools are less inclusive of children and young people with SEN. The categories have been calculated per 1000 of 2 to 18 population to provide useful comparisons across LAs. **Please note there is currently no SEN data for the new LAs (Dorset (838) and Bournemouth, Christchurch and Poole (839)) in the benchmarking tool. The first SEN data for them collected in January 2020 and will be published in the next update of the tool.**

Your local authority	Year
#NAME?	2019-20

Viewing comparison with	Year
B) YORKSHIRE AND THE HUMBER	2019-20

C) England	2019-20
------------	---------

#NAME?	2019-20
--------	---------

**Chart 1: Number aged up to 25 with SEN statement or EHC plan (per 1000 of 2-18 population )**

This chart compares the proportion of children and young people with SEN statements or EHC plans. Differences in proportions reflect not only differences in the level of needs but also variations between local authorities in the way that SEN assessments are undertaken, EHC plans are produced and special provision is made.

**Chart 2: Placement of pupils aged up to 25 with SEN statement or EHC plan (per 1000 of 2-18 population)**

This chart breaks down the proportion of children and young people with SEN statements or EHC plans into where they are placed. The categories of special provision are explained in more detail in the "Glossary and sources" worksheet and the data can be found in data table 2. Differences between local authorities should be interpreted with care. For example, lower numbers could reflect a lower use of a particular type of provision or a lower proportion of the population with SEN statements or EHC plans.

## High Needs Benchmarking Tool

### Comparison of section 251 budget and outturn data

This sheet uses data from local authorities' section 251 budget and outturn returns, which have been submitted in line with the guidance for the relevant year, for example 2019-20 :

<https://www.gov.uk/guidance/section-251-2019-to-2020>

The categories have been combined and calculated per head of the 2-18 population to provide useful comparisons of spend. It is important to understand the context of local authorities' expenditure patterns, and not to consider these figures in isolation.

### Chart 3: High needs amount per head of 2-18 population

This chart compares budgeted and/or outturn spend per head, using aggregated section 251 categories as explained in the "Glossary and sources" worksheet. The data can be found in data table 3.

*Note that place funding includes academies for the budget but excludes academies for outturn.*

*Note that the place funding category includes special schools and academies and PRUs and AP academies to enable comparison across years (refer to the "Glossary and sources" worksheet for category changes in 2018-19).*

D not applicable

The following charts disaggregate local authority funding; top up funding (maintained schools, academies, free schools and colleges); and top up funding (non-maintained and independent schools and independent schools and colleges) into phase and institution type and income, for the selected comparators. This does not include expenditure on very young children with SEN or a disability which some local authorities make from their early years budgets. Differences can reflect both variations in spend and variations in the make-up of the local authority – for example, a greater proportion of secondary schools than the comparator.

**Chart 4: High needs amount per head of 2-18 population: place funding split by phase (for mainstream) and type of institution (for specialist provision)**

Note that place funding for Primary and Secondary schools was included for the first time in 2018-19. If a year prior to this is selected this category will be blank.

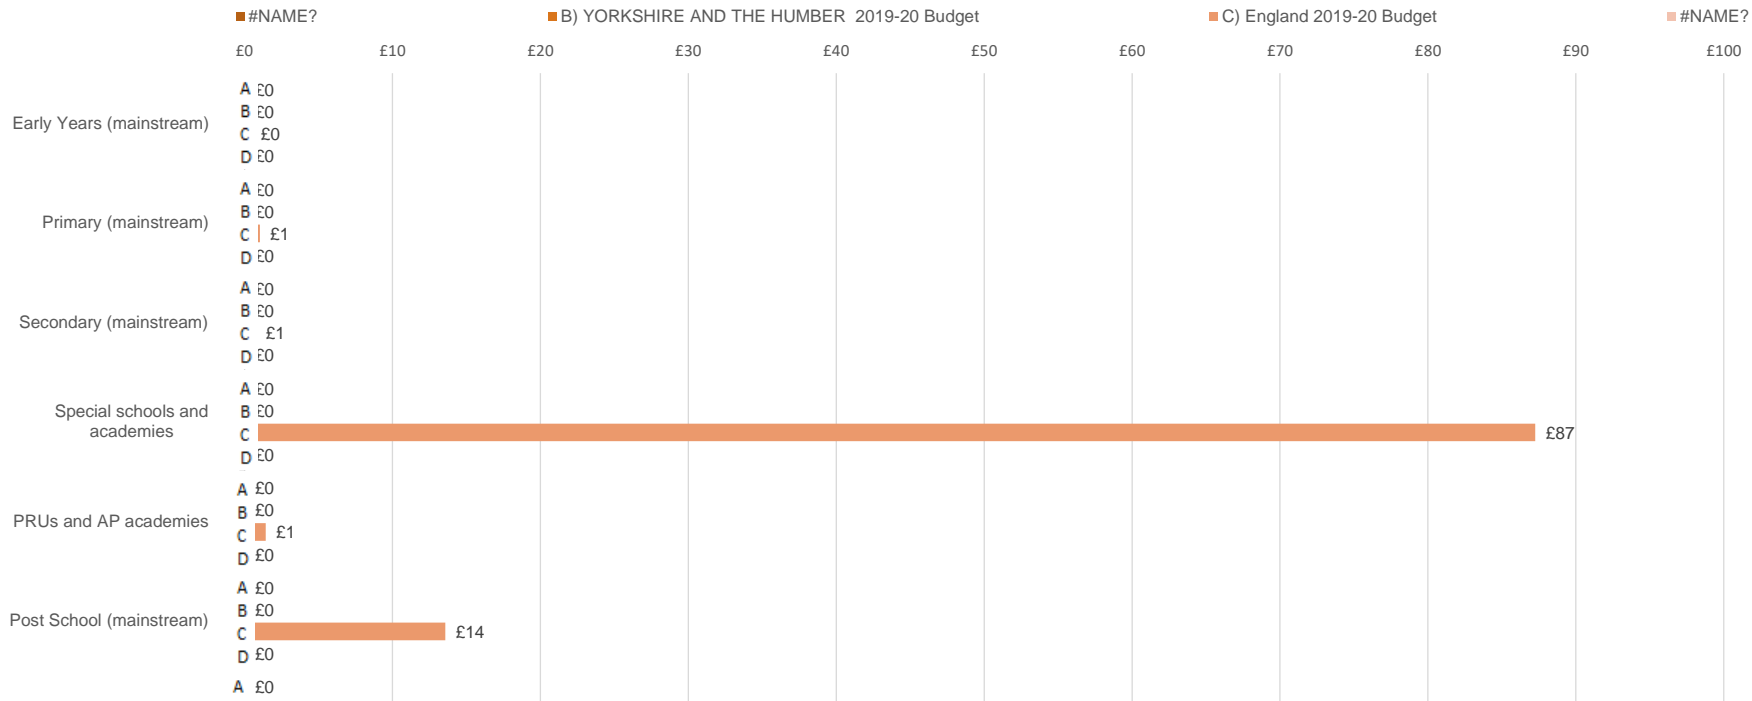

**Chart 5: High needs amount per head of 2-18 population: top up funding (maintained schools, academies, free schools and colleges) split by phase (for mainstream) and type of institution (for specialist provision)**

**Chart 6: High needs amount per head of 2-18 population: top up funding (non-maintained and independent schools and colleges) split by phase (for mainstream) and type of institution (for specialist provision)**

## High Needs Benchmarking Tool

### Comparison of high needs national funding formula illustrative allocations

This sheet shows the provisional high needs national funding formula allocations for 2020-21, as published on 11 October 2019. The import/export adjustment will be updated with January 2020 school census and February R06 2020 ILR data when this data becomes available. Further information can be found in the policy document, impact table, and technical note at the following links:

<https://www.gov.uk/government/publications/national-funding-formula-tables-for-schools-and-high-needs-2020-to-2021>

<https://www.gov.uk/government/publications/national-funding-formula-for-schools-and-high-needs>

Table 1: High needs national funding formula allocations

	High needs NFF 2019-20 allocation	High needs NFF 2020-21 provisional allocation	High needs NFF provisional % gains available	Percentage change in elements included in the funding floor and gains calculation (per head of 2-18 population)
#NAME?	£49,549,613	£55,030,214	11.1%	11.3%
B) YORKSHIRE AND THE HUMBER			not applicable	
C) England			not applicable	
#NAME?	not applicable	not applicable	not applicable	not applicable

Chart 8: Index of 2-18 population qualifying for national funding formula deprivation factors

This chart compares the incidence of deprivation, the data for which is shown in data table 4. Both free school meals and IDACI are being used as a proxy for special educational needs, and a greater incidence attracts through the national funding formula. IDACI band A is the most deprived.

Chart 7: Provisional import/export adjustments

This chart shows the import/export adjustment for individual local authorities only. This factor reflects cross-border movements and any structural changes such as college mergers. A negative adjustment reflects the local authority being a net exporter, and a positive adjustment for a net importer. This factor is currently provisional and is calculated from January 2019 school census data and ILR data R06 cut taken in February of the 2018/19 academic year. This factor will be updated for 2020-21 allocations with January 2020 school census data and data from the February R06 ILR for 2019/20.

Chart 9: Index of 2-18 population qualifying for national funding formula poor health and low attainment factors

This chart compares the incidence of poor health and attainment, the data for which is shown in data table 4. Bad health, disability, and low attainment are being used as a proxy for special educational needs and disability, and a greater incidence attracts more funding through the national funding formula.
