Provider Supply and Demand Information – Childcare Market in North Yorkshire

The LA has a statutory duty to ensure there are sufficient places for children of working parents. To support development of your provision and to ensure we can support providers wishing to expand where there are insufficient places, it is essential that we have up to date information and data about your provision including the occupancy and vacancy details.

Please complete the termly supply and demand data on the Sufficiency tab when requested. Completion of the termly sufficiency data, as stated in the Provider Funding Agreement 14.4, is a requirement and failure to submit the requested information may result in inaccurate, delayed or the suspension of funding from the LA.

Please also ensure your setting’s details are correct by checking and amending your details on the FIS Provider Portal tab.
