Adult Learning North Yorkshire are offering a free 'school readiness' course for children aged three years and above, and their parents.

By learning through play and fun games, children will work towards ten key objectives, designed to ensure they're ready for starting school.

These objectives centre around communication, making friends, understanding the words no and stop, recognising their name, toileting, dressing and more.

This course is perfect for children who may need a little support before they start school.

This course can be delivered online or in your school or nursery if you have a cohort of parents interested in the course. Please get in touch with Nicole to discuss further.
