16 May 2018

Dear Headteacher/Chair of Governors/Management Committees/Proprietors,

### **NYSCB Training Offer**

The North Yorkshire Safeguarding Children Board (NYSCB) provides a range of e-learning and face to face training for partners within North Yorkshire. The way in which we provide training has now changed and I am writing to provide you with details of our new training offer for 2018/2019.

We have introduced a new Online Child Protection Basic Awareness Course for staff in all organisations. It is important to note that a record of completion will not be recorded and a certificate is not automatically generated. In order to maintain a record of completion, this can be achieved by staff taking a screenshot of the quiz results slide. In order to successfully complete the course, staff must achieve a minimum score of 80%. This package is an interim measure to meet the demand from schools and other agencies while a suitable alternative is identified.

Comprehensive Child Protection Pathways and Safeguarding Children classroom based training is now provided by the Local Authority as a traded service. Further details are available from <http://nyestraining.co.uk>.

We are also providing a range of free face to face training courses, including our highly popular 'Developments in Safeguarding Manager's Masterclass' and 'Managing Allegations Against Staff'. For details of our range of courses, dates and locations, as well as links to other free safeguarding e-learning courses, please visit our website <http://www.safeguardingchildren.co.uk/learning-improvement/training-courses>. Please note that additional courses may be added throughout the year so don't forget to bookmark this page.

If you wish to keep yourself updated of our training courses, new multi-agency practice guidance, procedures and general safeguarding children news you can follow us on Twitter at <https://twitter.com/NYSCB>. Please direct any enquiries to [lscb@northyorks.gov.uk](mailto:lscb@northyorks.gov.uk).

Yours faithfully,

*Haydn Rees Jones*
