A few

Intensive Support

Intense intervention for approx. 3 weeks

Some

Direct Support

6 week Intervention Plan

Interventions may include a combination of direct work with the child/young person and with the adults supporting them. The sessions can be delivered in person or virtually to allow for flexibility. The intervention is a collaboration between hub and setting to upskill staff for long-term continued intervention and support.

Best practice is for sessions to be attended by setting staff.

All

Focused Support

Allocated support from a named Focused Support Inclusion Partner on a regular basis. To work in partnership on holistic SEND support and school provision.
