STEM WITH WINGS: Quantum

What's next for quantum?

Join us for STEM with Wings: Quantum to celebrate the International Year of Quantum with Dr Jess Wade and colleagues from Imperial

These **free**, 50 minute digital events will explore the mysterious world of quantum and how quantum technologies underpin our daily lives. From mobile phones to LED lights, computers to barcodes, quantum technology is already everywhere. **STEM with Wings** will look at the huge impact of this notoriously puzzling branch of physics.

Students will learn from scientists at the forefront of quantum research, take part in engaging activities and ask the expert panel their questions.

Suitable for students aged 7 – 14 from across the UK
