October 2026- April 2027
On-line Twilight Sessions

More information on next page

Programme funded by the
Department for Education's Regional
Improvement for Standards and
Excellence (RISE) programme

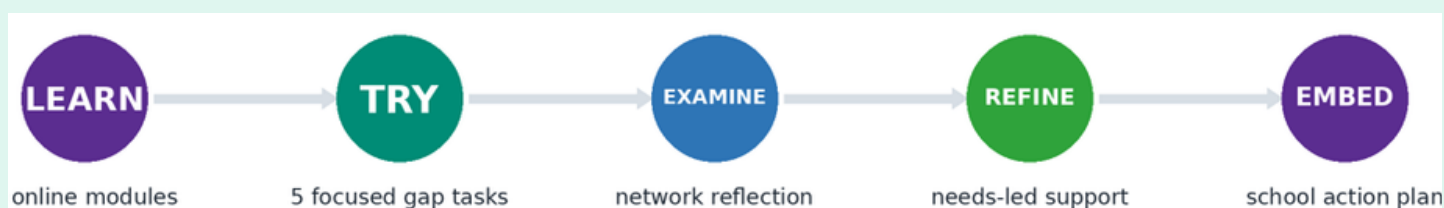

From Organisation To Intentional Practice

Mixed age classes are an established reality for many small and rural schools and an emerging response to falling rolls elsewhere.

This programme offers sustained professional development designed specifically around that context.

Universal network support • Targeted coaching • A limited number of supported lesson study opportunities

HOW THE PROGRAMME WORKS

Who it is for	What you will gain	Your commitment
Schools establishing mixed age classes. Schools refining established provision. Best fit: a teacher and leader pair. Solo places remain possible for very small schools. Early Career Teachers	Stronger curriculum progression and clearer teaching decisions. Tested classroom routines and improved planning documents. A sustainable school action plan and regional peer network.	Attend six facilitated twilight online modules. Complete five focused gap tasks, normally 60 to 90 minutes within existing work. Take part in baseline and endpoint evaluation and share learning in school.

Delivered in partnership by North Yorkshire Research School and Yorkshire Endeavour Academy Trust

RISE funded

This project is funded by the Department for Education's Regional Improvement for Standards and Excellence (RISE) programme, connecting schools to the experts already making a difference in classrooms. For more information on RISE, please visit [Regional improvement for standards and excellence \(RISE\) - GOV.UK](https://www.gov.uk/government/programmes/regional-improvement-for-standards-and-excellence).
