**How does your curriculum grow?  
January 15th 2018, The Principal York Hotel, 2 - 5pm.**

Dear Colleagues,

The challenges of shaping a curriculum that is fit for the needs and interests of your school community that also meets national expectations is one that many schools face.

'How does your curriculum grow?' is a CPD session that we have developed specifically to respond to this challenge, particularly in view of the recent announcement from Ofsted to review and investigate the narrowing of the curriculum.

Our session will explore the 'freedom and opportunity' of the National Curriculum and some of the findings and implications from Ofsted reviews so far. Our 10 Principles of curriculum design will outline how schools can shape a rich and purposeful curriculum whether they are bound by the National Curriculum or not.

Our model of curriculum design, development and review is based on our collective experience as senior leaders, current and former Ofsted inspectors and our work with schools and education bodies across the UK and beyond. Please visit our website for further information about our work.

[www.curriculumfoundation.org](http://www.curriculumfoundation.org).

If you have any questions about this event, we would be delighted to discuss curriculum matters further with you. 'How does your curriculum grow?' can be booked directly via Eventbrite.

Best wishes,

Dr Brian Male
