

Power Down Pete

Book your Eco day for this term.

Power Down Pete North Yorkshire's Planet saving super hero is taking bookings for the new term. Curriculum linked activities with an Environmental twist for all key stages will enthuse your eco team teams and engage your school councils.

Our service strongly believes the children can be the driving force behind schools realising savings on their energy and water bills. By generating a switch off culture in school, children understand the importance of energy efficiency and their responsibilities to the planet.

Primary schools who pay into the total service of the energy and sustainability service can access this support at no extra cost. [Schools outside the service can purchase the service on bespoke rates.]

Our Schools Carbon Reduction Officers Environmental Education Service

- ★ Offers In-school workshops and assemblies.
- ★ Support for eco teams and school councils
- ★ Eco schools support for staff
- ★ Energy, waste and water reduction advice
- ★ Themed pupil events

This is what some schools have said.

"The sessions delivered were amazing and the children had lots of fun learning some very important points" Burn Yates Primary School, Harrogate

"Relevant, fun and full of learning!" Former Head teacher, Hutton Rudby School

In addition to the total service package, for an extra fee, we also offer bespoke activities on the rainforest and perhaps for year 6 an after SATS treat with an international feel as we learn about Japanese culture food, dancing and language.

To book is simple. Contact Peter.bell@northyorks.gov.uk
